purchases online and in stores or even to get ATM withdrawals Now Cash App does not support PayPal With approximately 24 million monthly active users in 2022 Cash App has been meant to be considered peer-reviewed support In theory you should put it to use to make despite your friends after dividing taxi fare or to refund 50 percent to an own sister because they paid to your Mothers Day gift in full It is not uncommon that Cash App is used for giving loans out or paying for products and services which renders plenty of chances for possible scams and fraud Cash App payments are supposed to become instant and consequently irreversible While you do have many options to try to secure your money back throughout the app there is no guarantee that they are going to always do the job Just in the event you are dealing with a legitimate retailer and also the purchase has been finalized over Cash App you should begin the refund process through the app If you sent money to the wrong person or even the total amount had been wrong the sooner you understand it the better as you might continue to find a way to cancel the payment In the event that you suspect fraudulent transactions or in the event that you think you've been scammed you may try to dispute the charges by simply requesting Cash Support for assistance
